What is Covered and What is Not Covered

This warranty covers all defects in materials or workmanship in this product, but DOES NOT COVER the following:

1. Damage, deterioration or malfunction resulting from:
 - a. Accident, negligence, misuse, abuse, improper installation, set-up, operation, inadequate ventilation, or failure to follow instructions contained in your Owner's Manual.
 - b. Retained after-image display (sometimes referred to as "burn-in"; such "burn-in" can arise from extended viewing of fixed images, letterbox or other formats not intended for the dimensions of the display, or data viewings on screen. Please read our Owner's Manual carefully to avoid this type of damage).
 - c. Any shipment of the product. (Claims must be presented to the carrier.)
 - d. Repair or attempted repair by anyone other than YAMAHA or an authorized YAMAHA Service Center.
 2. Any unit which has been altered or on which the serial number has been defaced, modified or removed.
 3. Consequential, economic or property damage.
 4. Normal wear, battery replacement, filter cleaning or replacement, fan and related path cleaning and any periodic maintenance.
 5. Initial setup, check-ups or Plasma Monitor service calls for which no defect in materials or workmanship is found.
 6. Labor and materials required to remove and reinstall the product, except Plasma Monitor service will be provided at the product location during normal working hours for products located within the normal service distance of the authorized service center. All other products need to be returned to an authorized service center for repair.
 7. Any unit used for industrial or commercial purposes.
 8. Signal reception problems, set-up errors, or mis-adjustment of consumer controls.
 9. Any unit damaged by, or as a result of, product(s) not supplied by the warrantor.
 10. Any unit which has not been purchased from an authorized YAMAHA Home Audio dealer in the USA. If you are uncertain as to whether a dealer has been authorized by YAMAHA, please contact YAMAHA's Service Department. This warranty also does not cover cosmetic parts, including front panel, cabinet, knobs, the appearance of any included Remote Control transmitter, nor damages attributable to power line surge or related electrical abnormalities, lightning damage or Acts by God.
- NOTE: Despite the use of advanced technology, it is not possible for every pixel in the Plasma Monitor to function properly. Some number of non-functioning pixels will occur in any Plasma Monitor unit, and given the state of manufacturing technology, this must be considered normal operation. Therefore, this warranty does not cover pixel failure.

Who may enforce the warranty:

This warranty is enforceable only by the original end-user consumer purchaser of the unit, who purchased from a Yamaha dealer authorized to make that sale, who can provide the original purchase documentation to establish that the unit was originally purchased from an authorized Yamaha dealer within the warranty period.

What we will pay for and what you must pay for:

YAMAHA will repair or replace units covered by this warranty, without charge to the consumer for labor or materials. Some repair parts

may be used or rebuilt replacements, that meet or exceed Yamaha specifications for new parts, in exchange for defective parts. (In the case of Plasma Monitor products, if, in the sole judgment of the repair person, the in-home, or in-service center does not reveal any defect in materials or workmanship, you will be required to pay the cost of the service repair. Such cost may include a service charge, and either the cost of the service call for in-home service, or the cost of round-trip product shipment for service center service). For products other than Plasma Displays, YOU ARE RESPONSIBLE FOR ANY INSTALLATION OR REMOVAL CHARGES AND FOR ANY INITIAL SHIPPING CHARGES, if the product(s) must be shipped for warranty service. However, we will pay the return shipping charges to any destination within the USA if the repairs are covered by the warranty.

How you can get Warranty Service

1. If your YAMAHA product(s) require service, read the troubleshooting portion of the Owner's Manual or contact the authorized YAMAHA dealer and the dealer will advise you of the procedures to be followed. If this is not practical, contact YAMAHA at the address, telephone number or Internet URL shown below. We may request that you send the defective product(s) to a local authorized YAMAHA Service Center, to an authorized YAMAHA Regional Service Center, or authorize return of the defective product(s) to YAMAHA for repair. (In the case of a Plasma Monitor product, if you are beyond the normal operating distance of a service center, then Yamaha will pay the costs for transportation of the product from your home and back, provided a warranty-covered defect is found.)
2. Product(s) shipped for service should be packed securely and must be accompanied by a detailed explanation of the problem(s) requiring service, as well as your sales receipt or other proof of date and place of purchase, as evidence of warranty coverage.
3. Plasma Monitor Products are extremely sensitive to damage in shipment. If you must ship your product for repair, you must pack the product in a container suitable for shipping such a sensitive product, and you must instruct the carrier you select on the proper method of shipment. Yamaha will not be responsible for product damaged in shipment, and any claims will have to be pursued by you with the carrier. When shipping your product for warranty service, you must provide a detailed explanation of the problem(s) requiring service, as well as your sales receipt or other proof of date and place of purchase, as evidence of warranty coverage.
4. Warranty registration is not required for warranty coverage.
